TRANSMITTAL OF THE BUILDING 705 - PREDEMOLITION SURVEY REPORT (PDSR) DWF-050-04

Provided for your review and approval is the enclosed subject report for Building 705. This report characterizes the physical, chemical and radiological hazards associated with this facility, summarizes the characterization activities, defines the Data Quality Objectives developed for this characterization, and presents the data quality assessment, verification and validation of results.

Based upon this PDSR and subject to concurrence by the CDPHE, Building 705 is acceptable for demolition.

Please notify Kaiser-Hill when you transmit this document to CDPHE. If you have any questions, do not hesitate to call me or Duane Parsons at extension 6458.

RE: Pre-Demolition Survey Report (PDSR) for Building 705 - Approval

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed the PDSR for Building 705, Revision 0 dated August 17, 2004. This PDSR was received on August 27, 2004. Based on the information contained in this PDSR, we are hereby approving the PDSR for Building 705.

As stated in this PDSR, Building 705 contained Beryllium contamination above the unrestricted release levels after decontamination/removal efforts, which was subsequently sprayed with a fixative to meet the unrestricted release levels. As such, and as indicated, though not specifically stated, it is our understanding that all wastes will be properly characterized, managed, and sent off-site for proper disposal and not recycled on site (Contact Record dated 7/29/04).

It is also our understanding, and as previously agreed in the Contact Record dated July 29, 2004, that appropriate beryllium monitoring will be conducted during demolition of B705.

If you have any questions regarding this correspondence please contact me at (303) 692-3367, or (303) 692-3328.

Sincerely,

Steven H. Gunderson
RFCA Project Coordinator
